Godstone Primary and Nursery School

RSHE Policy

REVIEW DATE: July 2026

REVIEWED BY: Liz Hellier

NEXT REVIEW: July 2027

WRITTEN BY: Hayley Lancashire

Headteacher: Nick Usher

Chair of Governors: Liam McGivern

1. Purpose

The purpose of relationships, sex and health education (RSHE) is to provide the children with the knowledge and skills necessary to make informed choices about their relationships and wellbeing. RSHE aims to develop healthy relationships, understand human sexuality, and promote sexual health. It is a key component of the PSHE curriculum, which is designed to help children learn valuable life skills and prepare them for life and work in modern Britain. Our RSHE curriculum is taught in a progressive manner and builds on prior learning. This policy should be read in conjunction with the PSHE policy.

Our RSHE policy is fundamentally linked to our school's core values:

- Pride
- Responsibility
- Respect
- Ambition
- Compassion

2. Aims

The aims of relationships, sex and health education (RSHE) at our school are to:

- Provide a framework in which sensitive discussions can take place
- Prepare pupils for puberty, and give them an understanding of sexual development and the importance of health and hygiene
- Help pupils develop feelings of self-respect, confidence and empathy, and cultivate positive characteristics such as kindness and integrity
- Create a positive culture and promote healthy norms about relationships, including sexual relationships where relevant, and about health, including mental health
- Teach pupils the correct vocabulary to describe themselves and their bodies

We uphold the PSHE Associations belief that through an excellent PSHE curriculum, children will develop the knowledge and skills to *'embrace the challenges of creating a happy and successful adult life… that will enable them to make informed decisions about their wellbeing, health and relationships and to build their self-efficacy'.*

3. Statutory requirements

As a maintained primary school, we must provide relationships education to all pupils under section 34 of the Children and Social Work Act 2017. We must also teach health education.

We are not required to provide sex education, but we do need to teach the elements of sex education contained in the science curriculum.

In teaching RSHE, we must have regard to guidance issued by the secretary of state, as outlined in section 403 of the Education Act 1996.

We also have regard to legal duties set out in:

- Sections 404 to 407 of the Education Act 1996

- Part 6, chapter 1 of the Equality Act 2010
- The Public Sector Equality Duty (PSED) (as set out in section 149 of the Equality Act 2010). This duty requires public bodies to have due regard to the need to eliminate discrimination, advance equality of opportunity and foster good relations between different people when carrying out their activities

At Godstone Primary and Nursery School we teach RSHE as set out in this policy.

4. Policy development

This policy has been developed in consultation with staff, pupils and parents/carers. The consultation and policy development process involved the following steps:

1. Review – a member of staff or working group pulled together all relevant information including relevant national and local guidance.

2. Staff consultation – all school staff were given the opportunity to look at the policy and make recommendations.

3. Parent/stakeholder consultation – parents/carers and any interested parties were invited to attend a meeting about the policy.

4. Pupil consultation – we investigated what exactly pupils want from their RSHE.

5. Ratification – once amendments were made, the policy was shared with governors and ratified.

5. Definition

Relationships and health education will:

- Teach the skills and knowledge that form the building blocks of all positive relationships
- Support children from the start of their education to grow into kind, caring adults who:
    - Have respect for others
    - Know how to keep themselves safe
    - Have emotional awareness
- Highlight the benefits and importance of physical activity, good nutrition, sufficient sleep and time spent outdoors
- Emphasise the relationship between physical health and mental wellbeing
- Aim to reduce stigma attached to health issues, in particular relating to mental health, and discourage the pejorative use of language related to ill health

6. Planning

Our RSHE Curriculum is taught through the Christopher Winter Project (CWP) scheme of work from Reception to Year 6. Detailed planning and resources are included within the scheme, which ensures continuity and clear progression.

RSHE is taught within the personal, social, health and economic (PSHE) education curriculum. Biological aspects of RSHE are taught within the science curriculum, and other aspects are included in religious education (RE).

The school will make sure that:

- Core knowledge is sectioned into units of manageable size
- The required content is communicated to pupils clearly, in a carefully sequenced way and within a planned scheme of work
- Teaching includes sufficient and well-chosen opportunities and contexts for pupils to embed new knowledge, so that it can be used confidently in real-life situations
- "Over blocking" by the school's filtering and monitoring system doesn't lead to unreasonable restrictions as to what children can be taught

Relationships education focuses on teaching the skills and knowledge that form the building blocks of all positive relationships, supporting children from the start of their education to grow into kind, caring adults who have respect for others and know how to keep themselves and others safe, including:

- Families and people who care for me
- Caring friendships
- Respectful, kind relationships
- Online safety and awareness
- Being safe

Health education will:

- Highlight the benefits and importance of physical activity, good nutrition, sufficient sleep and time spent outdoors
- Emphasise the relationship between physical health and mental wellbeing

Primary sex education taught in year 6 will be taught in line with the National Curriculum for science, and focus on:

- The main external body parts
- The human body as it grows from birth to old age (including puberty)
- Reproduction in some plants and animals
- How a baby is conceived (in line with the factual curriculum of conception set out in the science curriculum)

Teachers will make sure that all pupils' views are listened to, and will encourage them to ask questions and engage in discussion. Teachers will answer questions sensitively, honestly and appropriately for the age of the pupils.

The programme will be designed to focus on boys as much as girls, and activities will be planned to make sure both are actively involved.

Pupils will be introduced to protective and preventative content in a way that does not cause unreasonable alarm and does not appear to normalise risky behaviours or activities. The school will make sure that all teaching and materials are appropriate for the ages and needs of the pupils including any additional needs, such as special educational needs and disabilities (SEND).

Our RSHE curriculum is set out in appendices 1 and 2. We may amend our curriculum content to respond to the needs and context of our pupils, to discuss issues affecting them in an age-appropriate manner. We will inform parents and carers of any deviation from our published policy in advance, and share any relevant materials on request.

These areas of learning are taught within the context of family life, taking care to make sure that there is no stigmatisation of children based on their home circumstances (i.e. families can include single-parent families, same-sex parents, families headed by grandparents, adoptive parents and foster parents among other structures), along with reflecting sensitively that some children may have a different structure of support around them (for example, looked-after children, young carers or kinship carers).

Across our school, we will also be mindful of the law and legal requirements, taking care not to condone or encourage illegal activity, such as violent action against people, criminal damage to property or hate crime.

All planning and resourcing materials can be found using the following pathway:

Staffshare > Curriculum > Subjects > PSHE and RSHE > RSHE Planning and Resources > CWP RSHE Lesson Plans and Resources

7. Teaching and learning

RSHE is taught by the class teacher at Godstone Primary and Nursery School.

We have developed the curriculum in consultation with parents and carers, pupils and staff, and taking into account the age, developmental stage, needs (such as cultural and religious needs) and feelings of our pupils. If pupils ask questions outside the scope of this policy, teachers will respond in an appropriate manner so that pupils are fully informed and don't seek answers online. Teaching will be developed to ensure the curriculum is accessible for pupils with SEND.

A range of teaching styles and active learning techniques are incorporated into the planning and plans include stimulating interactive whiteboard materials and activities.

We will share all curriculum materials with parents and carers on request.

<u>EYFS</u>

In the Early Years Foundation Stage, the children are developing the skills of managing their emotions, developing relationships and looking after their bodies through Personal, Social and Emotional Development (PSED) which is one of the prime areas of learning.

The children are supported through teaching and modelling to recognise, express and regulate their emotions. They are also supported to collaborate, negotiate and solve problems with others. The introduction of the Zones of Regulation also begins in the EYFS.

Within PSED, the children are supported to care for themselves and express their needs in relation to health and hygiene. They learn to risk assess and stay safe.

Resources

We will consider whether any resources we plan to use:

- Are aligned with the teaching requirements set out in the statutory RSHE guidance

- Would support pupils in applying their knowledge in different contexts and settings
- Are age-appropriate, given the age and maturity of the pupils
- Are evidence-based and contain robust facts and statistics
- Fit into our curriculum plan
- Are from credible sources
- Are compatible with effective teaching approaches
- Are sensitive to pupils' experiences and won't provoke distress

We will make sure that when we consult parents/carers we provide a representative sample of the resources that the school plans to use.

We will ensure that parents/carers are able to view all curriculum materials used to teach RSHE on request.

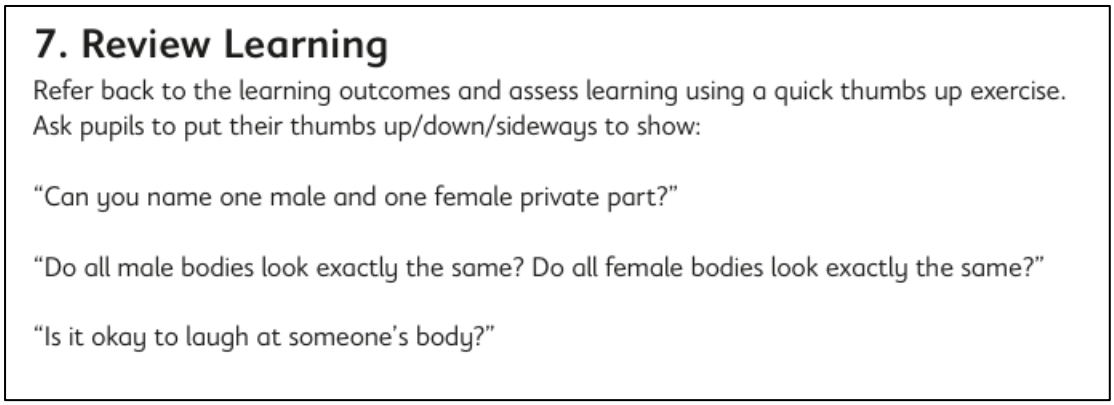

Parents/carers are not able to veto curriculum content.

We will comply with any applicable copyright laws when sharing resources with parents or carers, and will include a statement that parents agree to as a condition of access that the content should not be copied or shared further except as authorised under copyright law.

8. Assessment, feedback and marking

Teacher assessments in all year groups:

Weekly: Within individual lesson through a range of Assessment for Learning techniques built into the scheme of work and through questioning. Each lesson plan has a built in time at the end to reflect and review learning from the session.

7. Review Learning

Refer back to the learning outcomes and assess learning using a quick thumbs up exercise. Ask pupils to put their thumbs up/down/sideways to show:

"Can you name one male and one female private part?"

"Do all male bodies look exactly the same? Do all female bodies look exactly the same?"

"Is it okay to laugh at someone's body?"

At the end of a unit: By looking at children's knowledge and understanding at the start of the unit of work and their knowledge and understanding at the end.

Termly: Teachers updating Insight at the end of each term to indicate progress towards age related expectations within the wider PSHE subject

Feedback and marking in all year groups:

- Feedback and marking can take three forms
    - Immediate, summary or review – these can take back verbally or in written form
    - See Assessment, Feedback and Marking Policy for more detail.

All work in folders is acknowledged

9. SEND support and intervention

We will teach about these topics in a manner that:

- Considers how a diverse range of pupils will relate to them
- Is accessible to pupils with SEND
- Is sensitive to all pupils' experiences
- During lessons, makes pupils feel:
    - Safe and supported
    - Able to engage with the key messages

We will also:

- Make sure that pupils learn about these topics in an environment that's appropriate for them, for example in:
    - A whole-class setting
    - Small groups or targeted sessions
    - 1-to-1 discussions
    - Digital formats
- Give careful consideration to the level of differentiation needed

9. Parents' right to withdraw

Parents/carers do not have the right to withdraw their child from relationships and health education.

Parents/carers have the right to withdraw their child from the non-statutory components of sex education within RSHE – the headteacher will grant all requests to withdraw a pupil from the non-statutory parts of sex education.

Requests for withdrawal should be put in writing using the form found in Appendix 3 of this policy and addressed to the headteacher.

Alternative schoolwork will be given to pupils who are withdrawn from sex education.

10. Spiritual, Moral, Social and Cultural Development (SMSC)

RSHE is an integral part of spiritual, moral, social and cultural development.

Spiritually, pupils develop the ability to reflect on the interests, ideas, beliefs and thoughts of others, fostering empathy, understanding and respect for different perspectives.

Morally, pupils develop an understanding of right and wrong, learning how positive behaviour is promoted through the school's behaviour policy. Through the PSHE curriculum they explore concepts such as fairness, honesty, respect and responsibility, develop an understanding of the law and why rules are important in keeping themselves and others safe, and are encouraged to make informed, ethical choices while recognising the consequences of their actions.

PSHE provides children the opportunity to develop the skills to work collaboratively, communicate effectively and build positive relationships.

Culturally, pupils develop respect for the beliefs, values and traditions of others. They learn to celebrate diversity, appreciate different perspectives and understand the importance of inclusion, equality and mutual respect within their school and the wider community.

11. Links with other policies

This policy links to the following policies and procedures:

- Assessment, Feedback and Marking Policy
- Child Protection and Safeguarding Policy
- Curriculum Policy
- Educational Visits Policy
- Equality and Equal Opportunities Policy
- EYFS Policy
- Homework Policy
- Individual Subject Policies
- Induction Policy
- Induction (ECT) Policy
- Most Able Policy
- PSHE Policy
- SEND Policy
- SMSC Policy
- Teaching and Learning Policy

Appendix 1: RSHE curriculum map

RSHE Curriculum Map

Our RSHE Curriculum is taught through the Christopher Winter Project (CWP) scheme of work from Reception to Year 6.			
Reception	**My Body My Relationships** Lesson 1: Caring friendships Lesson 2: Being kind Lesson 3: Different Families Lesson 4: My body my choices	**Year 1**	**Growing and Staying Safe** Lesson 1: Different friends Lesson 2: Growing and changing Lesson 3: Body safety (Online and Off) Lesson 4: Families and care
Year 2	**Differences** Lesson 1: Gender stereotypes Lesson 2: Male and female Lesson 3: Naming body parts Lesson 4: My body belongs to me	**Year 3**	**Valuing Difference and Keeping Safe** Lesson 1: Body differences Lesson 2: Personal space and consent Lesson 3: Families and people who help us Lesson 4: Staying safe and getting help online
Year 4	**Growing Up with Respect** Lesson 1: Changes Lesson 2: What is puberty? Lesson 3: Healthy friendships Lesson 4: Valuing difference	**Year 5**	**Puberty and Personal Boundaries** Lesson 1: Talking about puberty Lesson 2: The reproductive system Lesson 3: Puberty help and support Lesson 4: Respect boundaries and being an upstander
Year 6	**Puberty, Relationships and Reproduction** Lesson 1: Puberty and reproduction Lesson 2: Communication and consent in relationships Lesson 3: Families, conception and pregnancy Lesson 4: Communication and respect in relationships and online		

Appendix 2: By the end of primary school pupils should know

TOPIC	PUPILS SHOULD KNOW
Families and people who care for me	• That families are important for children growing up because they can give love, security and stability • The characteristics of safe and happy family life, such as: commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other's lives • That other children's families, either in school or in the wider world, sometimes look different from their own, but they should respect those differences and know that other families are also characterised by love and care • That stable, caring relationships are at the heart of safe and happy families, and are important for children's security as they grow up • That marriage and civil partnerships represent a formal and legally recognised commitment of 2 people to each other which is intended to be lifelong • How to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed
Caring friendships	• How important friendships are in making us feel happy and secure, and how people choose and make friends • The characteristics of friendships that lead to happiness and security, including: mutual respect, truthfulness, trust and trustworthiness, loyalty, kindness, generosity, sharing interests and experiences and support with problems and difficulties • That healthy, caring and kind friendships are positive and welcoming towards others, and do not make others feel lonely or excluded. Pupils should learn skills for developing caring, kind friendships • That not every child will have the friends they would like at all times, that most people feel lonely sometimes, and that there is no shame in feeling lonely or talking about it • That most friendships have ups and downs, and that these can often be worked through so that the friendship is repaired or even strengthened • About managing conflict with kindness and respect, and that violence is never right • How to recognise when a friendship is making them feel unhappy or uncomfortable, and how to seek help or advice from others, if needed

TOPIC	PUPILS SHOULD KNOW
Respectful, kind relationships	• How to pay attention to the needs and preferences of others, including in families and friendships. Pupils should be encouraged to discuss how we can balance the needs and wishes of different people in relationships, and why this can be complicated • The importance of setting and respecting healthy boundaries in all relationships with friends, family, peers and adults • How to communicate effectively and manage conflict with kindness and respect: how to be assertive and express needs and boundaries and manage feelings, including disappointment and frustration • That they can expect to be treated with respect by others and the importance of respecting others, including those who are different (for example: physically or in character, personality or background), or make different choices, or have different preferences or beliefs • The practical steps they can take in a range of different contexts to improve or support their relationships • The conventions of courtesy and manners • The importance of self-respect and how this links to their own happiness. They should have opportunities to consider issues like how they foster their own self-esteem and build a strong sense of their own identity, including through developing skills and interests • Pupils should have opportunities to discuss the difference between being assertive and being controlling, and the difference between being kind to other people and neglecting your own needs • About different types of bullying (including online bullying), the impact of bullying, responsibilities of bystanders (primarily reporting bullying to an adult) and how to get help • How to seek help when needed, including when they are concerned about violence, harm, or when they are unsure who to trust • What a stereotype is, and how stereotypes can be unfair, negative or destructive or lead to bullying and how to challenge a stereotype

TOPIC	PUPILS SHOULD KNOW
Online safety and awareness	• How to critically evaluate their online relationships and sources of information, including awareness of the risks associated with people they have never met • That people sometimes behave differently online, including by pretending to be someone they are not and/or pretending to be a child, and that this can lead to dangerous situations • That people should be respectful in online interactions, and that the same principles apply to online relationships as to face-to face relationships, including the importance of respect for others online, including when we are anonymous. For example, the importance of avoiding putting pressure on others to share information and images online, and strategies for resisting peer pressure. • The rules and principles for keeping safe online, how to recognise risks, harmful content and contact, and how to report them • That there is a minimum age for joining most social media sites which protects children from inappropriate content or unsafe content with older social media users, who may be strangers, including other children and adults • That it's important to be cautious about sharing any information about themselves online, and how to use privacy and location settings to protect their information online • How to critically consider their online friendships and sources of information, including awareness of the risks associated with people they have never met • How information and data is shared and used online, including where pictures or words might be circulated • Online risks, including that any material provided online might be circulated, and that once a picture or words has been circulated there is no way of deleting it everywhere and no control over where it ends up • That the internet contains a lot of content that can be inappropriate and upsetting for children, and where to go for advice and support when they feel worried or concerned about something they have seen or engaged with online

TOPIC	PUPILS SHOULD KNOW
Being safe	• What sorts of boundaries are appropriate in friendships with peers and others (including online). This can include learning about boundaries in play and in negotiations about space, toys, books and resources, for example • About the concept of privacy and the implications of it for both children and adults, including that it's not always right to keep secrets if they relate to being safe • That each person's body belongs to them, and the differences between appropriate and inappropriate or unsafe contact, including physical contact • How to respond safely and appropriately to adults they may encounter (in all contexts, including online) including those they do and don't know • How to recognise when a relationship is harmful or dangerous, including skills for recognising who to trust and who not to trust • How to report abuse, concerns about something seen online or experienced in real life, or feelings of being unsafe or feeling bad about any adult, and the vocabulary and confidence needed to do so • How to ask for advice or help for themselves or others, and to keep trying until they are heard • Where to get advice, for example from their family, school and/or other sources

TOPIC	PUPILS SHOULD KNOW
General wellbeing	• The health, wellbeing and happiness benefits of physical activity, time outdoors, and helping others • Simple self-care techniques, including the importance of rest, time spent with friends and family, as well as hobbies, interests and community participation • The importance of promoting general wellbeing and physical health • The range of scale of emotions that they might experience in different situations (e.g. happiness, sadness, anger, fear, surprise, nervousness) and that worrying and feeling down are normal, affect everyone at different times, and are not in themselves a sign of a mental health condition • How to recognise feelings and use varied vocabulary to talk about their own and others' feelings • How to judge whether what they are feeling and how they are behaving is appropriate and proportionate • That isolation and loneliness can affect children, and the benefits of seeking support • That bullying (including cyberbullying) has a negative and often lasting impact on mental wellbeing and how to seek help for themselves or others • That change and loss, including bereavement, can provoke a range of feelings, that grief is a natural response to bereavement, and that everyone grieves differently • Where and how to seek support (including recognising the triggers for seeking support), including who to speak to in school if they are worried about their own or someone else's mental wellbeing or ability to control their emotions (including issues arising online) • That it is common to experience mental health problems, and early support can help

TOPIC	PUPILS SHOULD KNOW
Wellbeing online	• That for almost everyone the internet is an integral part of life • How to think about positive and negative aspects of the internet • How online relationships can complement and support meaningful in-person relationships, but also how they might be in tension, and the reasons why online relationships are unlikely to be a good substitute for high quality in-person relationships, looking at the pros and cons of different ways of using online connection • The benefits of limiting time spent online, the risks of excessive time spent on electronic devices and the impact of positive and negative content online on their own and others' mental and physical wellbeing • How to consider the impact of their online behaviour on others, and how to recognise and display respectful behaviour online • Why social media, some apps, computer games and online gaming, including gambling sites, are age restricted • The risks relating to online gaming, video game monetisation, scams, fraud and other financial harms, and that gaming can become addictive • How to take a critical approach to what they see and read online and make responsible decisions about which content, including content on social media and apps, is appropriate for them • That abuse, bullying and harassment can take place online and that this can impact wellbeing • How to seek support from trusted adults • How to understand the information they find online, including from search engines, and know how information is selected and targeted • That they have rights in relation to sharing personal data, privacy and consent • Where and how to report concerns and get support with issues online
Physical health and fitness	• The characteristics and mental and physical benefits of an active lifestyle • The importance of building regular physical activity into daily and weekly routines and how to achieve this; for example, walking or cycling to school, a daily active mile or other forms of regular, moderate and/or vigorous physical activity • The risks associated with an inactive lifestyle, including obesity • How and when to seek support including which adults to speak to in school if they are worried about their health

TOPIC	PUPILS SHOULD KNOW
Healthy eating	• What constitutes a healthy diet (including understanding calories and other nutritional content) • Understanding the importance of a healthy relationship with food • The principles of planning and preparing a range of healthy meals • The characteristics of a poor diet and risks associated with unhealthy eating (including, for example, obesity and tooth decay) and other behaviours (e.g. the impact of alcohol on diet or health)
Drugs, alcohol, tobacco and vaping	• The facts about legal and illegal harmful substances and associated risks, including smoking, vaping, alcohol use and drug-taking. This should include the risks of nicotine addiction, which are also caused by other nicotine products such as nicotine pouches
Health protection and prevention	• How to recognise early signs of physical illness, such as weight loss, or unexplained changes to the body • About safe and unsafe exposure to the sun, and how to reduce the risk of sun damage, including skin cancer • The importance of sufficient good quality sleep for health, the amount of sleep recommended for their age, and practical steps for improving sleep, such as not using screens in the bedroom. The impact of poor sleep on weight, mood and ability to learn • About dental health and the benefits of good oral hygiene, including brushing teeth twice a day with fluoride toothpaste, cleaning between teeth, and regular checkups at the dentist • About personal hygiene and germs including bacteria, viruses, how they are spread and treated, and the importance of handwashing • The facts and scientific evidence relating to vaccination and immunisation. The introduction of topics relating to vaccination and immunisation should be aligned with when vaccinations are offered to pupils
Personal safety	• About hazards (including fire risks) that may cause harm, injury or risk and ways to reduce risks • How to recognise risk and keep safe around roads, railways, including level crossings, and water, including the water safety code
Basic first aid	• How to make a clear and efficient call to emergency services if necessary, including the importance of reporting incidents rather than filming them • Concepts of basic first aid, for example dealing with common injuries and ailments, including head injuries

TOPIC	PUPILS SHOULD KNOW
Developing bodies	• About growth and other ways the body can change and develop, particularly during adolescence. This topic should include the human lifecycle, and puberty should be discussed as a stage in this process • The correct names of body parts, including the penis, vulva, vagina, testicles, scrotum, nipples. That all of these parts of the body are private and have skills to understand and express their own boundaries around these body parts • The facts about the menstrual cycle, including physical and emotional changes (while the average age of the onset of menstruation is 12, periods can start at 8, so covering this topic before girls' periods start will help them understand what to expect and avoid distress)

Appendix 3: Parent/carer form requesting their child's withdrawal from sex education within RSHE

TO BE COMPLETED BY PARENTS/CARERS			
Name of child		Class	
Name of parent/carer		Date	
Reason for withdrawing from sex education within relationships and sex education			
Any other information you would like the school to consider			
Parent/carer signature			

TO BE COMPLETED BY THE SCHOOL	
Agreed actions from discussion with parents/carers	Include notes from discussions with parents/carers and agreed actions taken.

Appendix 4:PSHE at Godstone Primary and Nursery School- induction page for new teachers

PSHE at Godstone Primary and Nursery School

Timetabling

PSHE should be taught every week for a minimum of 45 minutes.

Schemes of Work

The units are shown on the class or subject curriculum map saved in staff share – curriculum – curriculum maps.

The scheme used to teach the majority of the subject is called *You, ME and PSHE*. The schemes of work for this can be found on staffshare;

RSE is taught in the summer term and uses the *CWP scheme*. This scheme of work can be found on staffshare;

The majority of the RSE curriculum is statutory. Parents have the right to withdraw their child from sex education but not from statutory Relationships Education or Health Education. This only applies to lessons 1 and 3 in Year 6. The rest of the scheme, including lessons on the menstrual cycle and puberty are statutory. Letters are sent out prior to these being taught, detailing the content of each RSE lesson from Reception to Year Six.

Planning and delivery

Detailed planning and resources are included within the scheme, which ensures continuity and clear progression at an age-appropriate level. These plans will need to be adapted appropriately based on the needs and prior experiences of pupils in your class.

Addition enrichment lessons will be planned in throughout the year, for example, Fire Safety, Police Community lessons and Walking Feet.

At the beginning of every year, each class will write a set of ground rules. These are to be displayed and referred to during every PSHE lesson throughout the year.

All PSHE, including RSE lesson, should be taught by the class teacher, wherever possible.

Recording

Many lessons within PSHE are discussion based. Some lessons have additional resources, such as printed worksheets, reflection sheets and assessments for the children to complete. Each completed worksheet needs to be dated and put into the children's individual folders.

Folder are orange.

Marking and Assessment

A range of formative assessment opportunities are planned into each unit of work, including questioning, assessment sheets and reflection opportunities.

All completed work by the children needs to be acknowledged with purple ticks and collated in the PSHE folders.

Summative assessment of PSHE will be inputted into Insight tracker annually.
