

Schools Closing Social Story

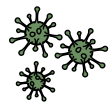

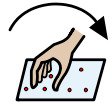

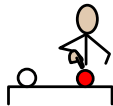

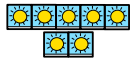

To help manage the coronavirus all schools have been

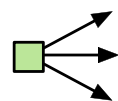

asked to close to most children.

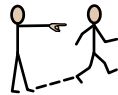

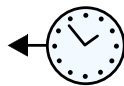

This won't be forever, but will probably be for

some weeks. This is to try and stop the virus

from spreading.

The school have sent some activities for me to

do at home.

The school will let my parents know when our

school will open again.

I will have a good time learning from home and

look forward to going back to school when it is open

again.
