

Godstone Village School PE Sports Funding 2016 / 2017

We are expecting to receive £9,000.00 in the 2016/2017 financial year in a dedicated Sports Grant from the Department for Education. This funding will enable the School to make additional and sustainable improvements to the quality of PE and sport. We will fund various sporting activities and employ specific external PE professionals. The funding will also contribute to upskilling staff in PE disciplines, will allow us to provide a variety of internal and external sporting clubs, improve competitive sporting opportunities and purchase age appropriate PE equipment. This will ensure that:

- We are able to offer appropriate PE and sport activities to for all age groups, increasing pupil engagement and ensuring all children are given access to opportunities to try a variety of sporting activities that they may otherwise not access
- We are able to maintain high quality PE provision for the school in future years
- Our PE subject leader is effective in monitoring sport provision across the school and is up to date with current best practice
- We can offer at a variety of sports clubs run and funded by the School every week, increasing pupil participation in sport, in particular our least active children
- The School participates fully and competitively in locally organised and age appropriate festivals and competitions and promotes/encourages inter school sports events
- Continue to widen the range of age appropriate and varied equipment we have in school
- Grow on the success of the 2016 Summer Term Sports Day; continue to expand and encourage family engagement and participation in sporting activities arranged by the School
